Department of Education

GOVERNMENT DEGREE COLLEGE

KANGAN-191202

Concept Note

Every year the World Environment Day is celebrated on 5th June around the globe so as to create awareness and motivate the different stakeholders to safeguard the environment and the celebration of World Environment Day has been seen as an important vehicle for creating awareness and encouraging action for the protection and well being of Environment by United Nations. It has been seen a flagship program for creating awareness related to wide variety of emerging global environmental concerns like aquatic ecosystem pollutions, overpopulation, global warming, sustainable development, biodiversity conservation and wildlife protection etc. The theme for the world Environment DAY 2020 is 'Time for Nature' with a special focus on the role of nature in providing the essential requirements that support the human life and development. Keeping this thematic understanding under consideration, the Department of education, Government Degree College is going to organise on day Seminar on the theme, 'Role of Academia-Community Linkage in Biodiversity Conservation'

Target Group

All the interested students of our College can participate in the said event. Each registered student will be given a 6 minutes time for presentation on the relevant theme. The interested students can register their names with the Coordinator of the Seminar, Prof Ajaz Ahmad Magray through Email at: ajazmagray04@gmail.com . All the registered students will get the meeting ID and password at 1:30 PM. The webinar will start at 2:00 PM Sharp. All the participants are requested to join the meeting 15 minutes prior to avoid any last minute network or connection issues.

Objective

. The major objective of holding such an event is to apprise the students about the importance of environment, role of nature in feeding the requirements of life and also to create awareness about the need and importance of student and community linkages in order to make the conservation of biodiversity possible. The optimal and sustainable use of our resources has to be ensured which is possible only while creating awareness among the various stakeholders and also motivating them to work for caring for the nature and natural resources which will ultimately lead to the betterment of our lives and will make the make earth a better planet. The event will provide our students a platform to present their ideas and efforts for the protection of our environment.

Awards

The student's presentations shall be evaluated through a panel of experts comprising faculty from different Degree Colleges and Universities of J&K. All the participants will get an e-certificate through email. The first three position holders will be awarded.
